IMP AEROSPACE & DEFENCE

DAVID GOSSE

PRESIDENT, IMP AEROSPACE & DEFENCE

For more than 55 years, IMP Aerospace & Defence has been a leader in the Canadian and international aerospace and defence markets through a constant focus on our customers' operational, and quality needs. We are committed to continuing to be that trusted and relied upon partner for the manufacturing, engineering, and support services that we provide.

Across all four of the domains in which we operate: air, land, sea and space, the goal of the IMP Aerospace & Defence team is to continually delight our customers through our commitment to providing high quality goods and innovative services, delivered on time and on budget. This is true across the full breadth of our offerings from manufacture of components or assemblies to provision of complex engineering designs or full turn-key fleet management and in-service support solutions.

I am proud to work every day with the team of dedicated professionals within IMP Aerospace & Defence and we all look forward to working with you.

IMP AEROSPACE & DEFENCE

A BUSINESS UNIT OF IMP GROUP

IMP Group, founded in 1967, is a privately-held investment corporation, which owns a diversified portfolio of market leading, globally focused companies. Presently, the company operates in the aerospace & defence, aviation, information services & technology, healthcare, industrial, property management & development, and hospitality industries.

THE AMERICAS' ONLY LOCKHEED MARTIN APPROVED C130 SERVICE CENTERS AND HEAVY MAINTENANCE CENTER AND WORLD'S ONLY P3 ORION SERVICE CENTER

IMP provides comprehensive program management; performance-based fleet management, engineering solutions, Maintenance, Repair and Overhaul (MRO); Integrated Logistics Support (ILS), supply chain management, in-service support and training.

END-TO-END CAPABILITY

With a broad range of manufacturing and integration capabilities, IMP can support its customers requirements for products as well as services. This also enables the benefits of vertical integration to be passed on to the Customer.

PROVEN EXPERTISE

IMP Aerospace & Defence is Canada's largest exclusively-third party Transport Canada-Approved Maintenance Organization (AMO), Canada's longest-serving Design Approval Organization (DAO) and an industry leader at implementing program optimization techniques for our customers. This brings both an economic value and a customer focus to all our programs.

GLOBAL PARTNERSHIPS

With a customer base in over 15 countries and long term relationships with all OEM's, IMP Aerospace & Defence is a world leading service provider with access to a global supply chain and resources serving customers in the Space, Air, Land and Sea domains.

IMP AEROSPACE & DEFENCE

FLEET MANAGEMENT/ISS

Scalable program solutions allow our customers to combine smaller contracts into one integrated package that supports all requirements. In addition, an ISS program can be expanded or reduced over the contract's life depending on the Customer's needs.

MAINTENANCE, REPAIR & OVERHAUL

IMP Aerospace & Defence offers world-leading Maintenance, Repair, and Overhaul (MRO) services to the operators of a wide range of platforms and we excel at ensuring high operational availability through exceptional quality and turnaround times.

IMP AEROSPACE & DEFENCE

IMP AEROSPACE & DEFENCE

MISSIONIZATION/MODERNIZATION

As one of Canada's longest-serving Design Approval Organizations (DAO), IMP Aerospace & Defence provides full engineering services for piston to turbine conversions, full and combination cargo conversions, and for special roles such as reconnaissance, maritime patrol, search and rescue and firefighting.

ENGINEERING SOLUTIONS

IMP Aerospace & Defence's engineering teams have worked closely with our customers for over 50 years developing and obtaining airworthiness approvals for major aircraft modifications, and is highly experienced in all aspects including aircraft structures, systems, avionics, interiors, flight analysis and logistics support analysis.

IMP AEROSPACE & DEFENCE

IMP AEROSPACE & DEFENCE

TECHNICAL SERVICES

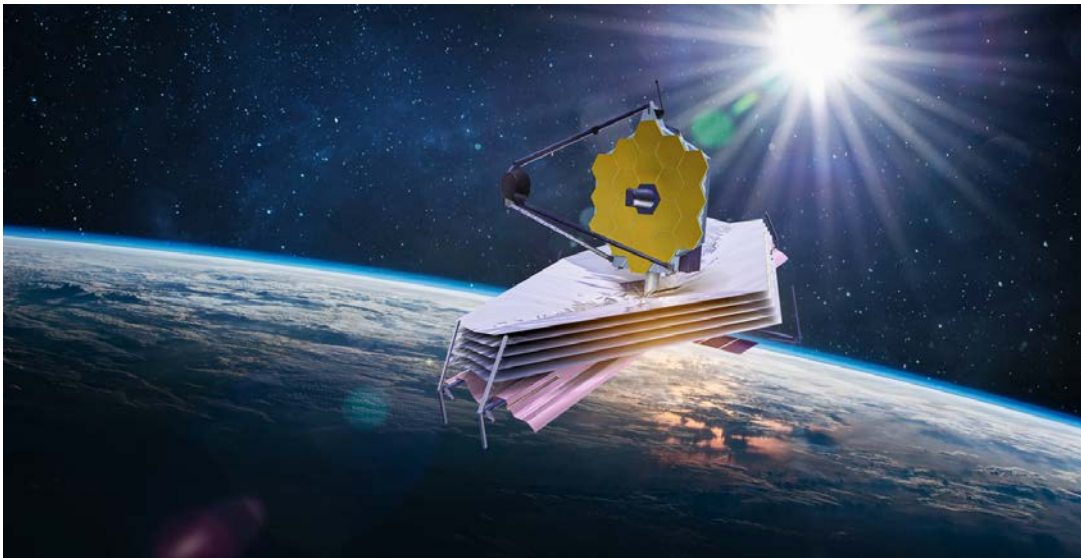

Through our highly skilled Technicians and Engineers, IMP Aerospace & Defence is able to support all aspects of military and civilian operational needs including integrated logistics support and technical publications.

WIRE HARNESS - DESIGN & MANUFACTURE

IMP Aerospace & Defence's capabilities and experience include the design or build-to-print production of simple to complex multi-branch wire harnesses in the land, sea, air and space domains.

IMP AEROSPACE & DEFENCE

ELECTRONICS MANUFACTURING, R&O

IMP Aerospace & Defence has a long history providing extensive avionics repair, overhaul, and manufacture for both military and commercial requirements in multiple industries on multiple platforms, always ensuring our customers remain on time and on budget.

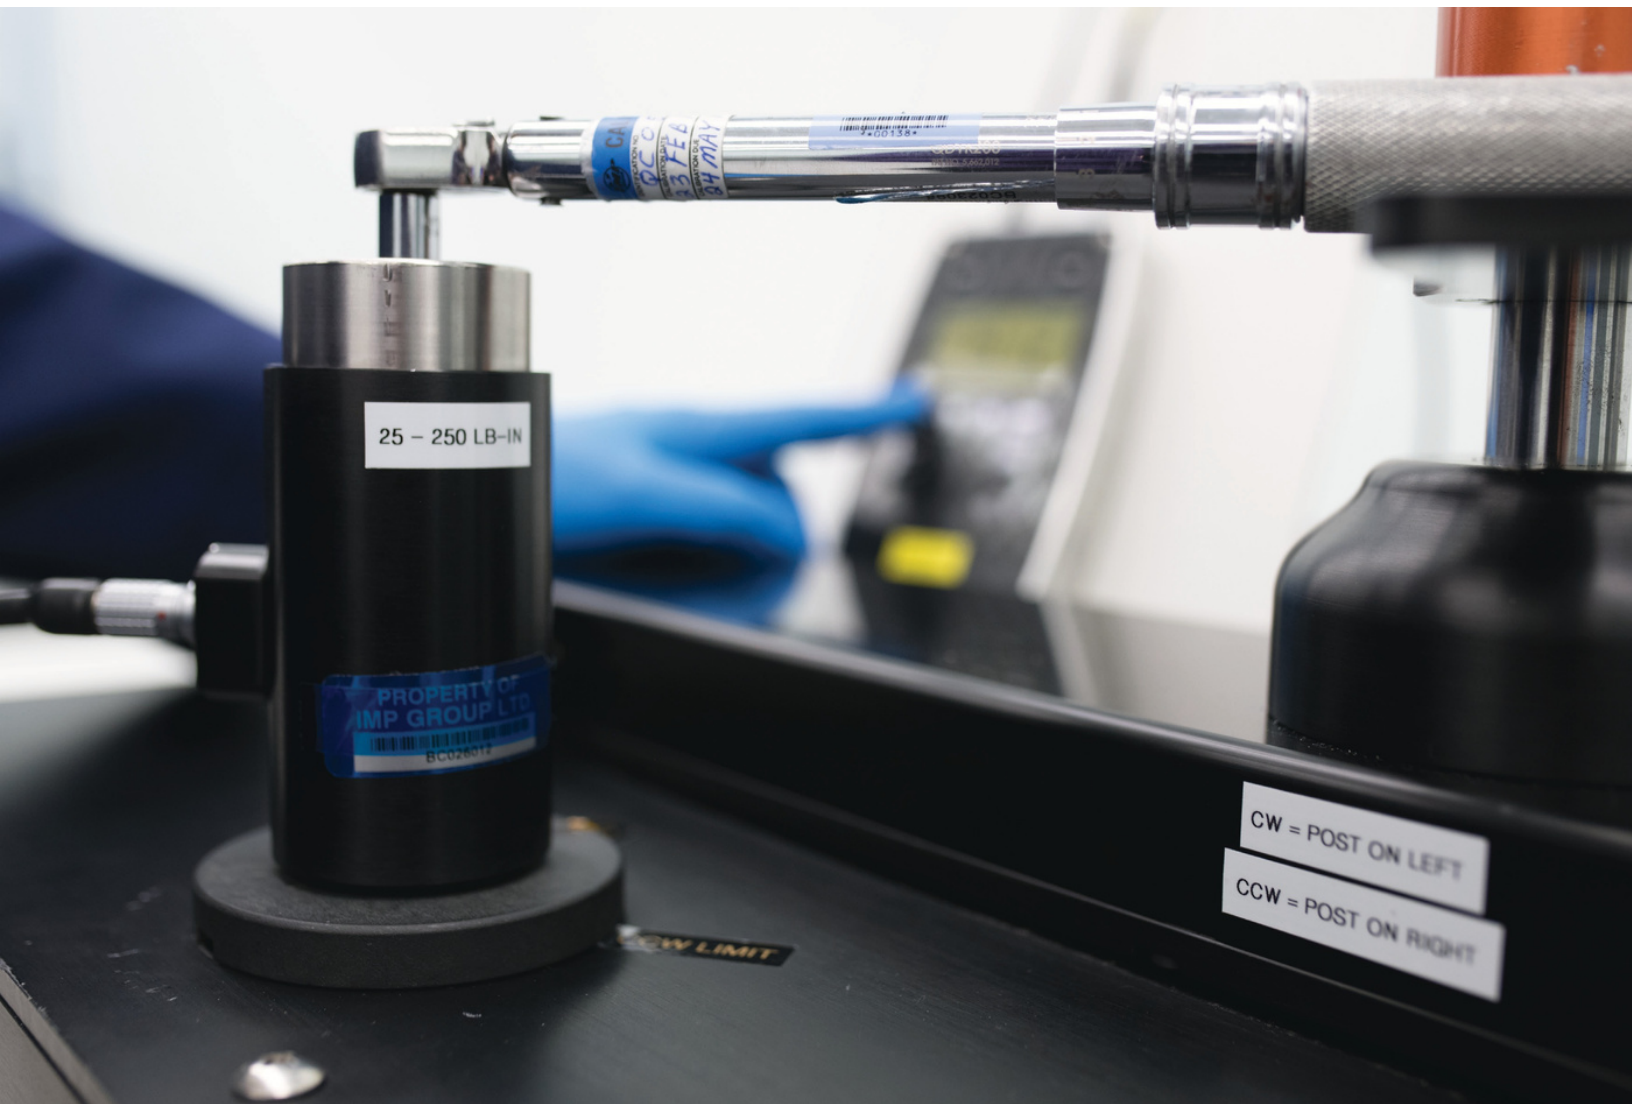

CALIBRATION

IMP Aerospace & Defence, an ISO 17025 certified calibration facility, provides expert services in calibrating torque, dimensional, and electrical equipment and calibration subcontract management services.

IMP AEROSPACE & DEFENCE

COMPONENT MANUFACTURING, R&O AND ASSEMBLY

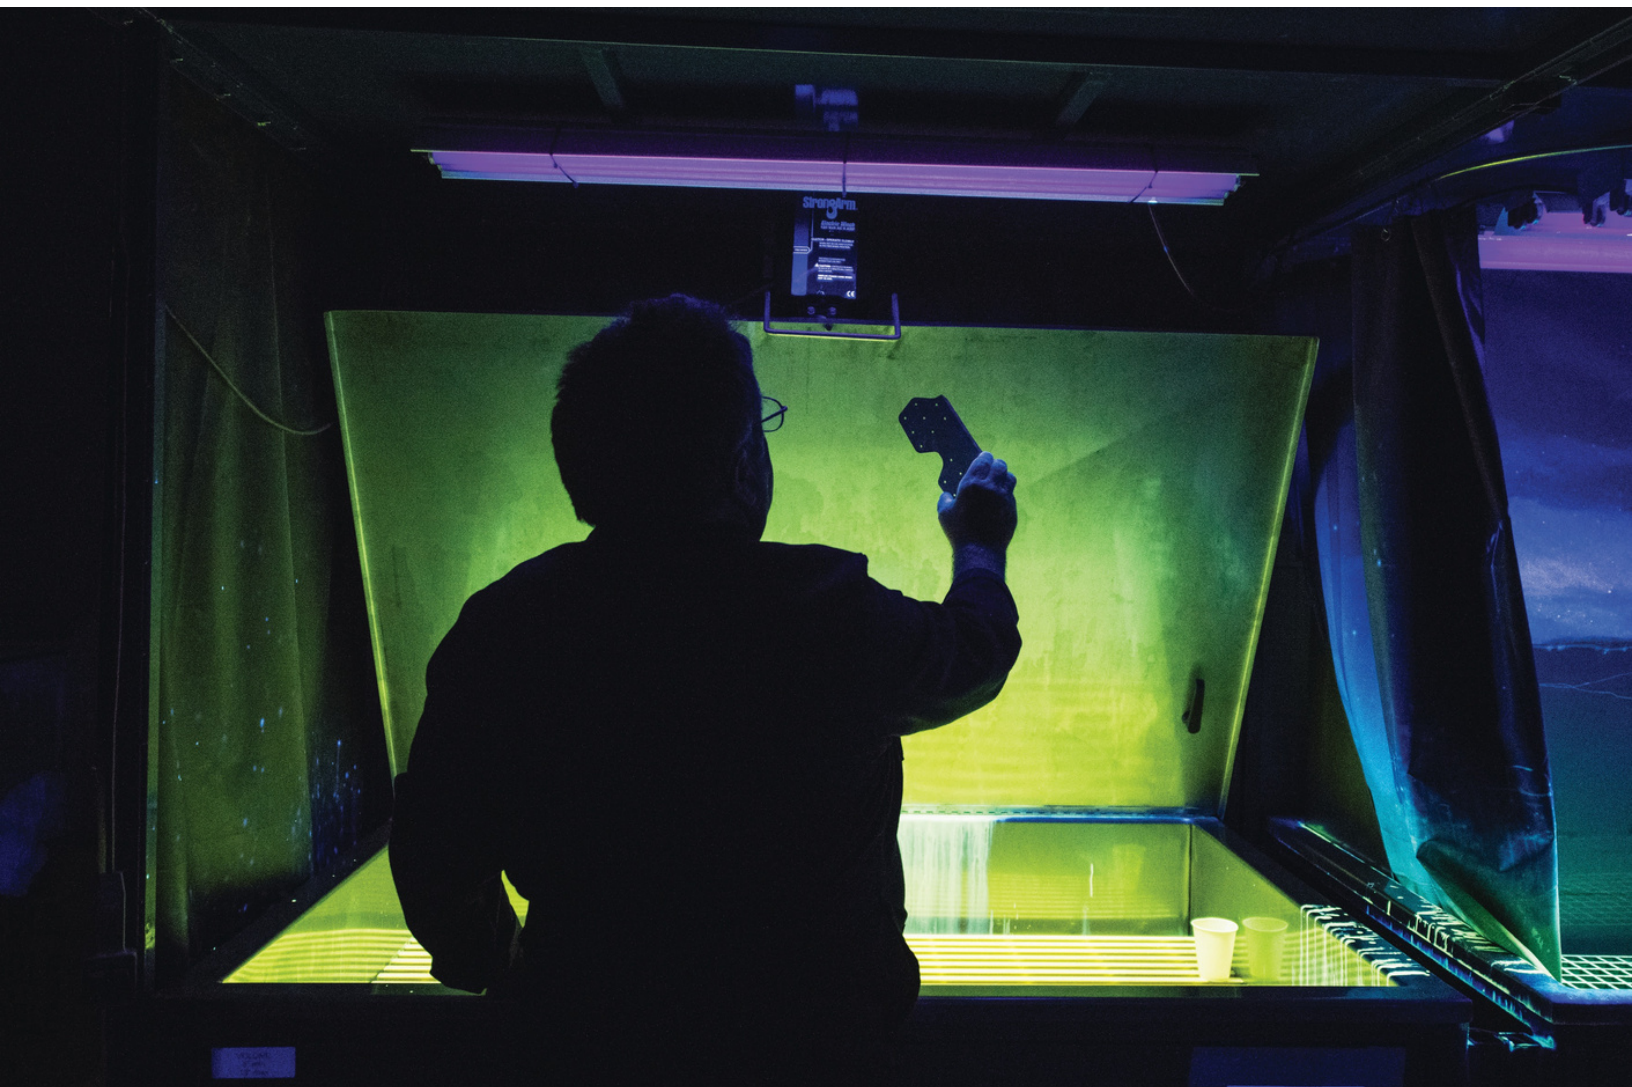

With decades of experience, IMP Aerospace & Defence uses its expertise to deliver manufactured, and/or to offer structural repairs to components, sub-assemblies, final assemblies, detail parts, monolithic machining and composite structures to the world's Original Equipment Manufacturers of the Aerospace & Defence Industry.

POST PROCESSING

IMP Aerospace & Defence provides a wide range of processing capabilities designed to support in-house fabrication that reduce lead times, simplifies logistics and eliminate cost overruns.
